Those serials pertaining to [redacted] and [redacted] have been removed from the NORJAK file and have been enclosed into a [redacted] for the following reasons:

1. To consolidate NORJAK serials and make the NORJAK file as accurate a reflection of the facts in NORJAK as possible.
2. Remove the burden of following and reporting prosecution of a case which is unrelated to NORJAK from the present case agent.

Note: This is consistent with Bureau requirements to "vigorously pursue this matter" and with the memo of ASAC [redacted] dated 7/14/72, in which it was noted that this investigation requires the complete investigative attention of one Agent.

3. Will partially prevent confidential information concerning this matter being brought up during the upcoming [redacted] trial scheduled for 11/27/72.

Note: If it becomes necessary to prove [redacted] is not UNSUB in "open court", careful consideration should be given to how this is done so as to prevent providing the real UNSUB with information he may need to continue to avoid prosecution. In addition, the new leads received as a result of any confidential information being made public will obviously make elimination of new suspects more difficult.

The following investigation was conducted by
Special Agent [redacted]

b6
b7C

AT SEATTLE, WASHINGTON

On September 1, 1972, witness [redacted]
[redacted] examined the artist's
color composite of Unsub and made the following comments:

b6
b7C

Nose	Better than original artist's drawing.
Glasses	The frame should be wider where it meets the glass part of the eye-glasses. The glasses on the original composite are better than on the new color sketch. The color of the glasses can best be described as dark honey brown.
Hair color	Good.
Hairline	Too low. Much better in the original artist's composite. Hair had a greasier appearance than shown in the color composite.
Complexion	Slightly paler. More towards the yellow side.
Age	About right.
Chin	Little too long.
Mouth	A little too small and drawn down. Upper lip too pressed.
Ears	Satisfactory.
Neck	Not as much room between chin and collar.
Forehead	Should not be any wider.

[] advised he also saw unknown subject with his glasses on; and therefore, all of his comments pertained only to both the color composite and the original artist's sketch with glasses on. [] further advised that the original artist's sketch with glasses on should have larger eyes, a wider nose, and a wider mouth.

b6
b7C

[] stated the hijacker looked honest with a "kind of nothing" appearance.

[] advised he could correct and suggest changes to an artist's sketch done in a two-thirds to three-quarters perspective if one were presented to him.

b6
b7C

On September 1, 1972, []
[] Seattle, Washington, telephone number []
[] made the following comments after viewing the color sketch:

b6
b7C

Facial features	Features in color sketch were similar to hijacker's.
Face	Should be a little wider in the middle but the forehead was the correct size and should not be changed.
Mouth	Okay
Glasses	Satisfactory
Nose	Should be flatter and wider.
Hair	Should be heavier and greasier. Hair color good.
Age	About right according to [] who stated the color composite resembled a man approximately 40-42 years of age.
Complexion	Color composite should be changed to reflect a man with a slightly darker complexion.

b6
b7C

3
SE 164-81

[] stated he thinks he still remembers the hijacker but advised he only got a quick look at him.

b6
b7C

On September 5, 1972, []

b6
b7C

[] telephone number [] viewed the color composite of unknown subject and made the following comments concerning the sketch with glasses:

Hair Color good but should be curled more.

Lips Not submissive enough.

[] made the following comments concerning the picture without glasses:

b6
b7C

Appearance Hijacker did not have as nasty or as angry an appearance.

Hair Color correct.

Age Too old by approximately four years. [] stated the age of the individual depicted in the color composite looked to him to be about 45-48 years old. It was his opinion unknown subject was approximately 38-40 years old.

b6
b7C

Complexion Forehead should be slightly more copper colored, otherwise complexion was good. [] advised the lights on the airplane could possibly account for some of the swarthy appearance of unknown subject.

b6
b7C

Cheeks Should be slightly fuller.

Mouth Too emphasized. Definitely wrong.

Nose Better in the color sketch than in the original drawing.

Chin Satisfactory.

4
SE 164-81
RNN:md

[] further stated the mouth should not be curled down to give the impression of angriness or nastiness but should be made similar to the original artist's conception.

b6
b7C

[] advised from the top of the nose up the color composite was very good and the entire drawing had good proportions similar to those of the hijacker.

b6
b7C

[] further advised that the hijacker definitely had some Indian or Mexican blood in him. He would guess about one quarter Indian or Mexican blood.

b6
b7C

[] advised he saw the hijacker when he went to the bathroom and later, when [] was deplaning, he stopped to look at him while he was obtaining his coat.

b6
b7C

[] advised he believes he could criticize a profile drawing or three-quarter view drawing if one were shown to him.

Sir:

On Monday, May 1, we printed an interview from one D.B. Cooper, who is listed, I believe, in your files as the only successful American Skyjacker.

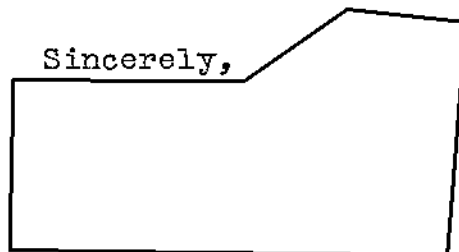

On Tuesday, May 2, you apprehended two men who were attempting to sell, or had sold, a story to

 I am quite willing to tell you that at no time was I ever approached by either individual, nor have I ever traveled to Bremerton or been in the Sweet Wing Inn. Nor would I ever go there.

For the sake of determining whether our interview is bona fide, I would ask you to open your D.B. Cooper file so that we may compare interview facts with the information you have gathered. Similarly, it would assist such a determination, if you could present the xeroxed bill for comparison.

Sincerely,

Enclosed are xeroxed copies of newspaper articles appearing on November 13, 1971, in The Seattle Times and The Seattle Post-Intelligencer.

The enclosed newspaper articles describe the first attempted skyjacking that involved the use of parachutes. It is noted the skyjacking occurred approximately twelve days before NORJAK.

The skyjacker was apprehended by the crew of an Air Canada DC8. He was apprehended because he did not have a clear plan of action when he boarded the plane. The following is a quote from the newspaper article appearing in The Seattle Times: "As the hijacker was preparing to jump, the pilot . . . jumped him and a purser came up behind him and let him have it with a five ax."

It is possible that unsub got the idea for his crime by reading about the unsuccessful skyjacker of Air Canada's DC8.

RE: PARACHUTE FOUND NEAR THE

On September 7, 1972, SA [REDACTED] advised telephonically that he had discovered a parachute hanging from the top of a tall pine tree, approximately 15 miles from the end of the Kalama River Road. Thirty yards from the tree in which the parachute was found was a piece of white plastic on which was inscribed the following: "United States Department of Commerce, NOAA - National Weather Service, Radio Sonde."

[REDACTED] stated the parachute was a reddish color with white shroud lines. The parachute appeared to be slightly smaller than a normal-sized parachute and appeared to have something hanging from the end of it that looked like part of a box.

b6
b7C

On September 7, 1972, [REDACTED] United States Department of Commerce, National Weather Service, 909 First Street, Seattle, Washington, advised his department uses parachutes to recover radio sonde equipment attached to weather balloons. [REDACTED] explained that a balloon is released with the radio equipment attached to it. The balloon rises to a preset height, at which time the balloon explodes. The radio equipment then falls a short distance and a small parachute opens and carries the radio equipment safely to the ground. This parachute is slightly smaller than a regular-sized parachute and it is pink in color with white shroud lines. [REDACTED] further stated that housing the radio sonde equipment is a white plastic box with the following inscription: "United States Department of Commerce, NOAA - National Weather Service, Radio Sonde."

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 5-8-72

Special Agents [redacted] personally contacted the office of the Seattle Flag newspaper located at 222 Dexter Avenue North, Seattle, at approximately 3:15 PM on May 5, 1972 and asked for [redacted]. Several individuals were observed languishing on tops of desks and sitting in various groups scattered about the one large room which is the office space of the Seattle Flag newspaper. One unidentified individual stated that he was in the Advertising Department and that [redacted] and all of the [redacted] were out and he did not know when they would return. SA [redacted] identified himself and requested that [redacted] call him at the FBI Office as soon as he came in.

b6
b7C

At approximately 4:00 PM, May 5, 1972, [redacted] telephonically contacted SA [redacted] at the FBI Office. [redacted] stated he recalled having talked to SA [redacted] several years ago in regard to the [redacted] which occurred at the University of Washington at Seattle. [redacted] then asked what it was all about. SA [redacted] advised [redacted] he wanted to talk to him personally and asked if he was going to be in his office. [redacted] stated he was not going to be in his office and then said "I don't want to talk to the FBI". [redacted] then asked "what's it all about". He was advised by SA [redacted] that he wanted to talk to him about the D.B. COOPER story published in the Seattle Flag. [redacted] stated "it's all in the article". He was advised that no, it was not all in the article as the FBI desired to know the identity of his source, name and address. [redacted] stated the source was anonymous in the article and would remain that way. SA [redacted] advised [redacted] either he would make the person's name and address, from whom he obtained the story, available or he would not. [redacted] stated he would not. [redacted] then added "it's not those two men from Bremerton, Washington."

b6
b7C

At this point the interview was terminated.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 5/19/72

[] "Seattle Flag, Inc.," was interviewed at the offices of that publication, 222 Dexter North, Seattle, Washington, concerning an article appearing in the "Seattle Flag", Volume 1, #5, under date of May 10, headlined, "D.B. COOPER FOUND." Although the paper is dated May 10, it was placed on the newsstands 5/1/72.

b6
b7C

[] was advised by SA CHARLES E. FARRELL of his right to remain silent and that anything he might say could be used against him in court; of the fact he had the right to the services of an attorney and that if he did decide to speak, he could cease to do so at any time he chose.

b6
b7C

[] advised that the paper did pay \$1,000 for the story as indicated in the newspaper, but he refused to disclose from whom the story was obtained. He said the story was furnished to him on tapes and that the reproduction of a \$20 bill appearing in the "Seattle Flag" was made by them from a photograph of a \$20 bill which was given to them when they purchased the story.

b6
b7C

[] advised that the "Seattle Flag" normally has a circulation of 25,000 copies, but the issue carrying the "D.B. COOPER" story sold 28,000. They were prepared to print another 25,000 when the story appeared in the newspapers about the arrests of two individuals in the Bremerton area, who perpetrated a hoax on Newsweek Magazine. Because of that hoax story, they did not reprint the issue and their sales immediately dropped off.

b6
b7C

[] advised he would be willing to cooperate with the FBI in furnishing "surrounding information" (but would never disclose the identity of the person who sold the story) in exchange for information as to where the discrepancies were in the "Seattle Flag" story. [] was advised that no such information would be furnished to him.

RE Publication of a "D. B. Cooper Story"
in the Seattle Flag, Seattle, Wash.,
May 10, 1972

Dear Sir:

Enclosed is one copy of an interview by Agents of
the FBI with [redacted] on May 18, 1972.

In the May 10, 1972, issue of the "Seattle Flag,"
[redacted] of which is shown in the newspaper as [redacted]
carried a headline, "D. B. Cooper Found!"

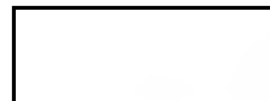

The paper also contained an enlarged reproduction
of a \$20 bill alleged to be from among the ransom money paid
on November 24, 1971, during the hijack at Seattle, Wash-
ington, of Northwest Airlines' Flight No. 305, during which
\$200,000 ransom was paid by the airline company.

The newspaper contained a story which allegedly
was an interview with "Cooper."

An examination by the FBI Laboratory of the \$20
bill reproduced in the article established that it was not
part of the ransom money, although the number was the same.

[redacted] was interviewed by Agents of the FBI on May 18, 1972, and freely discussed the story appearing in the publication, but insisted that the paper did pay \$1,000 for the story, and that the photograph of the S20 bill was given to them when they purchased the story. [redacted] however, stated that he was more than willing to furnish the FBI with surrounding information, but under no circumstances would he identify the person who sold the story to the newspaper.

b6

The above facts were discussed with AUSA [redacted] on September 14, 1972, at which time he advised that in his judgment the facts in this matter do not constitute a violation within the jurisdiction of the FBI.

Dear Sir:

On November 24, 1971, a man parachuted into the below described area with \$200,000 in \$20 bills. If, while camping or hunting, you should discover any evidence concerning this skyjacking please contact the nearest FBI Office.

AREA INVOLVED:

Bound on the West by US 5, bound on the South by the Columbia River, bound on the North by the Kalama River, and bound on the East by the Skamania - Clark County line.

WHAT TO LOOK FOR:

- (1.) The remains of a man, possibly dead for one year.
- (2.) The remnants of a parachute, harness or parachute shroud lines.
- (3.) 10,000 \$20 bills wrapped in a parachute canopy, all serial numbers are known and can be identified.
- (4.) Deteriorated raincoat or overcoat.
- (5.) Small briefcase or attache case.

If any information concerning this matter is discovered, it should be reported to the FBI Office at Seattle, Washington, Area Code 206, telephone MA 2-0460 collect, or to the nearest FBI Office, which can be found by checking the front of your telephone directory.

Very truly yours,

He said right after the NORJACK case, Aviation
 Week Magazine had printed a great deal of minute detail
 concerning the hijack and particularly technical data with
 respect to the Boeing 727, which was the plane hijacked. It
 was obvious to him, he said, that the hijacker had to know
 a great deal about this airplane, because he knew at what
 degree to have the flaps leveled, the air speed, the time
 to put the gears down, and etc.

According to _____ only an individual who was
 highly technically qualified in this aircraft would know
 this information. Therefore he suggested as a lead that

After being shown artist's conception B, stewardess [redacted] advised that she considered it to be an excellent likeness of the Unsub and a very positive improvement over the previous artist's conception. she stated that sketch B appeared to be a likeness of an individual who was coarse and a hoodlum-type, which she did not consider the Usurb to be. She stated that he was more refine in appearance than sketch B indicates. He did not appear to be as tough and rugged as sketch B indicates.

[redacted] continued, stating that the nose on sketch B is too rugged and heavy, and she would consider his nose to appear like something "in between" the nose drawn on the early artist's conception and sketch B. She further stated that at this time she was not certain that the upper lip turned down at the corner as portrayed in sketch B. She concluded by stating in general sketch B was an excellent likeness.

b6

[redacted] was interviewed and advised as follows:

b6
b7C

She pointed out that during her contact with the Usurb, he for the most part was seated on her side so that she saw only his profile. She never observed him from straight ahead, and most of the time he was whispering in her hour, and therefore, she was not in a good position to observe his facial features in great detail. She admitted that because of the time lapse, she is getting somewhat foggy in recalling his exact appearance and has looked at the artist's conception as often she feels she is influenced somewhat by this. After observing the new sketch B, she stated that she likes the original artist's conception better as being a good resemblance to the Usurb. She felt that artist's conception B definitely was not a good similarity to the Usurb. She felt that artist's conception B was not "him" and his appearance was lost completely in the sketch without the sunglasses. In particular, she noted that the hairline on sketch B was incorrect, and that she preferred the hairline on the original artist's conception. She stated on the original artist's conception it would be identical

in regard to the hair and hairline if the hair did not have any wave, curl or kink in it. Result of examination:

It was not determined whether the questioned writing on Q49 through Q51 was prepared by any of the persons involved in the preparation of the questioned material previously received in this matter. A conclusion could not be reached in this regard because of a lack of comparable writing and distortion in portions of the questioned material previously received; however, nothing of particular significance was noted in the limited comparison which could be conducted.

Q49 through Q51 were not identified in the Anonymous Letter File. Copies of these specimens have been added to this file for future reference.

No watermarks, indented writing, or other features were found on Q49 through Q51 which would be of value in determining the source of these specimens.

The submitted evidence was photographed and will be returned separately.

When shown the composite with glasses she observed that it is a fairly good likeness of the UNSUB and a definite improvement over the previous artist's conception. She stated that she felt the UNSUB's face should be slightly narrower. Regarding the hair on the new conception, she stated that her recollection was that the UNSUB's hair was combed more to the side much as was indicated in the old composite. The hair should be slightly thinner than is indicated in the new composite. The forehead should be slightly narrower. The chin should be thinner and slightly pointed. [redacted] stated that the mouth of the UNSUB as reflected in the new composite does not appear natural. At 2:03 AM I received a telephone call from communications officer [REDACTED] of the Belview State Patrol Office. He stated that he had received a telephone call from the Washington State Patrol office in Chehalis, Washington, concerning the D.B. Cooper Kidnapping. [REDACTED] was informed that [REDACTED] Washington, (phone)

b6
b7C

[REDACTED] who is [REDACTED] at Auburn, Washington, had been hunting the afternoon of 10/14/72, and felt he had some information concerning D.B. Cooper. [REDACTED] stated that [REDACTED] was presently working at the traffic center and could be reached there for further questioning. I then phoned [REDACTED] at which time he gave me the following information:

X
Source

[REDACTED] stated he and a companion had gone deer hunting in the early morning of 10/14/72. He had driven his car up the [REDACTED] to the summit just passed the boundary marker for Mt. Rainier National Park. After parking his car at about 7:30 AM, [REDACTED] noticed a 63 Ford Galaxy, (lic. Unk), maroon in color, in beat-up condition with a dragging muffler, pulled up and parked across the highway from him. [REDACTED] stated a man got out of the car whom he believes might be the subject D.B. COOPER. [REDACTED] stated the subject was about 5'10"-5'11", middle aged, approximately 170 lbs., with thin graying hair around the temples. He was wearing [REDACTED]

b6
b7C

[REDACTED] slung over his shoulder and [REDACTED] with him. [REDACTED] asked him what he was hunting for and the subject replied in a weak nervous voice that he was after deer and grouse. [REDACTED] then proceeded through the mountains to the position where he normally hunts deer. From there [REDACTED] saw the subject with [REDACTED] about 20 minutes behind he and his companion.

He stated he never left the state of Texas during the fall of 1971 and that the last time he flew in an airplane was to Detroit, Michigan in August, 1971. He stated that the last time he was in the Washington state area was approximately two years ago during the late summer when he [redacted] drove their 1966 LeMans Pontiac convertible to visit friends and relatives in that area. He stated that he was a parachutist with the U. S. Air Force and that following his service time he parachuted in Canada and Washington state; however, he stated it has been ten years since his last jump. He believed that his last jump was during an Easter festival in Ephrata, Washington. He stated that he has jumped approximately 150 to 180 times in his life.

b6

He admitted that on many occasions he does wear sideburns, with or without a beard. It was noted that he did not have a beard nor was he wearing sideburns at the present time. He was questioned concerning hijackings, and he advised that while he was in service, he and another individual who was not a chutist had discussed such a thing wherein a parachutist could not board an airplane and hold up the passengers and thereafter bail out. He stated that the thought at that time was of the valuables on the plane and not any ransom money at all. He stated that during discussions such as this, he knew no one that even remotely appeared to be serious at doing such a stunt.

[redacted] was displayed an artist's conception photograph of D. COOPER, and after he studied the photograph, he admitted that there were resemblances between this photograph and himself. At this time he then displayed a pair of sunglasses which he stated that were similar to the ones depicted in the photograph. He stated his sunglasses were prescription and from appearance they were black in color with the lens being very dark, and it was noted that the left ear piece had been broken near the lens and had been glued together again.

Re memo of SA THOMAS J. MANNING to SAC, 10/19/72

On 10/20/72 SA [redacted] contacted [redacted]
[redacted] Washington and he furnished the following
information:

b6
b7C

He lives directly under the fly way between Portland and Seattle. He recalls that the night of the hijacking a plane was flying very low and slowly over his house in the early evening and about 5 minutes after the plane flew over he heard on television that the hijacking was in progress. He stated the plane was a jet airliner but he did not see the plane. It was about 4 to 5,000 feet from the ground and he recalled that the weather was overcast, very low clouds and it was raining. The flight of the plane was about 20 miles from Mt. St. Helens

He pointed out that planes on the fly way always fly about 10 to 12,000 feet and in the four years he has lived at his present location he has never heard one so low as on the night of the hijacking. He advised that he knows the plane was over 3,000 feet for he lives near Mount Tum Tum and that is 3,000 feet and the plane was above that mountain. He also pointed out that the east end of Lake Merwin is approximately [redacted] He pointed out that the plane flew directly over [redacted] area and the area over which it flew is extremely rugged terrain. He pointed out that recently there have been a number of hunters in that area, from Lake Merwin to [redacted] area.

b6
b7C

[redacted] stated he feels that if it was the hijacked plane then the area which has been searched would have been too far west. He pointed out that the plane was heard before 10:00 PM and after dark but he could not fix the exact time he heard the plane fly over.

b6
b7C

[redacted] furnished a copy of a map on which he drew what he felt was the flight of the plane and this map is attached.

b6
b7C

The area over which the plane flew has a number of private owners but the majority of the area is owned by Gifford Pinchot National Forest and the Weyerhaeuser company.

[redacted] stated he along with [redacted] and a friend of [redacted] were hunting deer near Dog Valley located approximately twenty-five miles from Truckee. He stated that between 2:00 and 3:00 PM on October 21, 1972 they were walking up hill about one-half mile from Dog Valley Campground when he saw a strap with a buckle protruding from the ground. He stated he reached down and pulled on the strap and discovered what he first thought to be a backpack buried approximately two inches under the ground. He stated he started to leave the area, but upon looking further at the pack realized it was a parachute canopy pack. He stated he knew this from the fact he was a Paratrooper in the United States Army and before leaving the area he decided to take custody of the pack. He stated the reason he did this was in view of the fact he recalled an airline hijacking which took place between Seattle, Washington and Reno, Nevada and realized this was near the area of the airplane's flight. He stated at this time he decided to telephonically contact the FBI.

On 10/26/72, while speaking before the Oregon-Washington Law Enforcement Officers Association at the Sea-Tac Motor Inn, Seattle, I was contacted by [REDACTED]

Multnomah County Department of Public Safety.

[REDACTED] asked if we had checked out captioned suspect in this matter, pointing out that [REDACTED] was a pilot, a smoke jumper and looked very much like the sketch of UNSUB.

He felt that [REDACTED] was definitely capable of performing this feat.

LEAD

AT SEATTLE, WASHINGTON

The indices should be checked and if [REDACTED] has not been checked out as a suspect, investigation should be instituted to have it done.

Weekly Summary

News media in the Pacific Northwest have been provided information concerning the reward for recovery of the ransom money. In addition, the publicity release concerning this matter is still being passed out to hunters in the southwestern Washington area.

Serial by serial file review at Seattle continues and additional leads are being set forth as information becomes available. Names of additional suspects continue to be received and appropriate investigation instituted.

RE: PARACHUTES BELONGING TO EARL J. COSSEY

On October 25, 1972, COSSEY was interviewed, and he advised that the parachute found buried near Truckee, California, was not identical with one of those supplied to UNSUB.

COSSEY advised the parachute found buried was a seat pack and the one UNSUB used was a back pack. COSSEY further stated the parachute supplied to UNSUB had four cones and four grommets and the seat pack has only two cones and two grommets.

COSSEY stated that he had made available to Agents of the FBI his records containing serial numbers of the parachutes supplied to UNSUB. COSSEY stated that his records were not returned.

A careful review of the file does not reflect the location of COSSEY's records.

Will recontact COSSEY in an effort to have him recheck his records to determine if he possibly has them or has a duplicate set which may reveal the serial numbers of the four parachutes supplied to UNSUB on November 24, 1971.

The following background information is being provided to the Norfolk Division: Unsub had with him prior to the time he jumped the following:

- A. Parachute Back Pack
- B. Parachute Chest Pack
- C. Briefcase or attache case
- D. Dark overcoat
- E. A 4x12x14 paper bag
- F. A pair of dark slip-on shoes.
- G. Wrap around sunglasses with dark rims.
- H. 10,000 \$20 bills.

Since none of the above was found when the plane was searched at Reno, Unsub must have taken them with him, or discarded some of them prior to jumping.

The above-described attache case supposedly contained a bomb. It is believed Unsub threw this attache case from the plane prior to his jumping, because of the numerous other items he had to carry. If he did throw it prior to jumping, it would fall almost directly in the path of the aircraft. The 727 air stairs were lowered sometime after 7:42 p.m. and Unsub jumped prior to 8:15 p.m. on November 24, 1971. The plane covered a distance of approximately 87 miles during this time.

Fort Lewis, Washington, advised on August 22, 1972, that [redacted] Langley Air Force Base, Virginia, telephone [redacted] would be able to provide expert information concerning the feasibility of using high resolution infrared or regular photographic equipment in a low flying aircraft to locate the attache case or any other of the above-described items Unsub may have discarded prior to jumping.

b6
b7C

The items could possibly be lodged in thickly wooded, mountainous terrain. The search area would cover a strip of land approximately 87 miles long by one-half mile wide. It has been suggested that infrared photography might possibly indicate non-living material, such as an attache case, in a darker shade than living material, thereby enabling the case to be found using infrared high resolution photography.

Since Unsub possibly discarded the attache case prior to jumping, he could not have buried or hidden it. The case would have dropped directly in the flight path of the plane and could possibly be visible from the air. The length of time Unsub would have to throw the case or any other item is limited to 33 minutes, and therefore the area covered is relatively small when compared to the entire flight path.

Since NORJAK is the only aircraft hijacking in which the subject has not been identified and apprehended nor the ransom money recovered, the following lead is being set forth as a method of possibly obtaining new evidence that might identify Unsub or indicate his whereabouts:

LEAD

NORFOLK

AT LANGLEY AIR FORCE BASE, VIRGINIA. Will expeditiously contact [redacted] and determine from him the feasibility and cost of conducting the above-described photographic air search.

Re: NORJAK

Lab. No. D-721024016 LL

Specimens received 10/20/72

Q52 Envelope postmarked "U.S. POSTAL SERVICE, [REDACTED] PM 19 SEP. 1972," bearing hand printed address "New York Times. 229 W. 43rd New York, N.Y."

Q53 First page of two-page hand printed letter beginning [redacted]
[redacted] D.B.COOPER [redacted] " and ending
" [redacted] " [redacted]

Q54 Second page of two-page hand printed letter beginning
"EVERYTHING I'VE SAID HERE IS TRUE..." and signed [redacted]

Result of examination:

It was concluded that Q52 through Q54 were prepared by the writer of Q49 through Q51, submitted by Los Angeles with a communication dated 9/25/72.

It could not be determined whether the writer of Q49 through Q54 was involved in the preparation of the other specimens received in this case, because of a lack of comparable writing and distortion in portions of the material received in this matter.

No watermarks, indented writing, or other features were found on Q52 through Q54 which would be of value in determining the source of these specimens.

The submitted evidence was photographed and will be returned separately.

The following investigation was conducted by SA
[redacted] at Grayling, Michigan, on 10/16/72.

[redacted] Grayling, Michigan, advised that their records show the guarantee card for bow number [redacted] was never returned and subsequently there is no record of its owner on file. [redacted] indicated that since the serial number began with [redacted] the bow had been shipped by their company in 1969, [redacted] added that the only record of the serial number that their company might have would be on the reverse side of the shipper's copy of shipments going out to any of their 4,500 dealers. [redacted] stated as a shipment goes out, the shipping clerk usually writes serial numbers down on the reverse side of the shipper's copy of all bows. [redacted] stated the shipper's copies are kept on file at the Grayling office and if it was suspected that the bow was purchased in a particular region of the country, the files for the dealers in that region could be reviewed and possibly the particular dealer which received that bow could be identified.

Dear Sir,

Re: D. B. Cooper Skyjack.

I hesitate to be critical of your agents or agents of other offices. Because I have encountered so much foot dragging and lack of attention in various matters I shall do so now.

The local office of the FRT was contacted for me by a [redacted] last Friday the 20th October. They were informed I had pertinent information regarding the above. [redacted] was told they could not be sure until the 24th (Tues). I followed this up with a letter to that office and also to Northwest Airlines both should have been received Tuesday morn. the 24th

CORRESPONDENCE

There is a time factor involved and I explained that quick action was necessary. As yet I have received no further word. Of course today is the 25th and they may show up yet.

This person who I believe used the name C.B. Cooper for the skyjack is one I have been working on to find his contacts for drugs. I shall explain this further in a moment.

This individual is a pilot, a parachutist and has \$100,000.00 stashed. He also has the intelligence, ability and criminal attitude to attempt this type of play.

Now the reason I came by this information was due to the fact he is involved very heavily in heroin. Struck on my own as a private citizen with [redacted] I started 5 months ago to do something about the drug problem. Upon see I didn't think enough was being done so I had to put my 2¢ in. [redacted] that were constantly exposed to this filth was reason enough and also you can ~~throw~~ in the fact that I couldn't find a home here that it wasn't in one way or the other reaching.

During my crash program to learn all I could about drugs and other sources (starting from scratch) I was suspected of [redacted]

I am not crying about that since that was the proper thing to do. I did find the B.N.D.O. agents a little over zealous in their statement of facts in fact very much so, but I guess they just feel they are doing their job. I can prove my position and innocence at the proper time and that is not my purpose here.

Just because I [redacted] wasn't going to stop me from the program I set for myself some time ago. This basically was to find the sources and through legal means stop them. Petty pushers and small time dealers were all around us and as fast as they were picked up two would pop up behind them. I knew that just snitching would stop nothing but would unnecessarily endanger [redacted] and me. So if I was going to really do some good it would have to be much deeper. I knew the fact I had lived in an area for several years where drugs were plentiful and the people trusted me. Because of this and the large number of people I know I arrived [redacted] with top credentials.

b6
b7c

I now have the inside track to large quantities throughout the West Coast, Canada and Mexico, But guess what. Each direction I turn some one tries to goof it up. Just who is paying who? I know the vast sums of money have reached deep into the enforcement agency's but this is really far out. Is every one on the take?

I also know now that unless I can convince a few people otherwise there will be a contact on me when I go out. Mostly because of a stupid use of information in the County Vice Office here. There must be a few straight intelligent people around here that one can work with.

I also know where phoney money is being printed ect. ect.

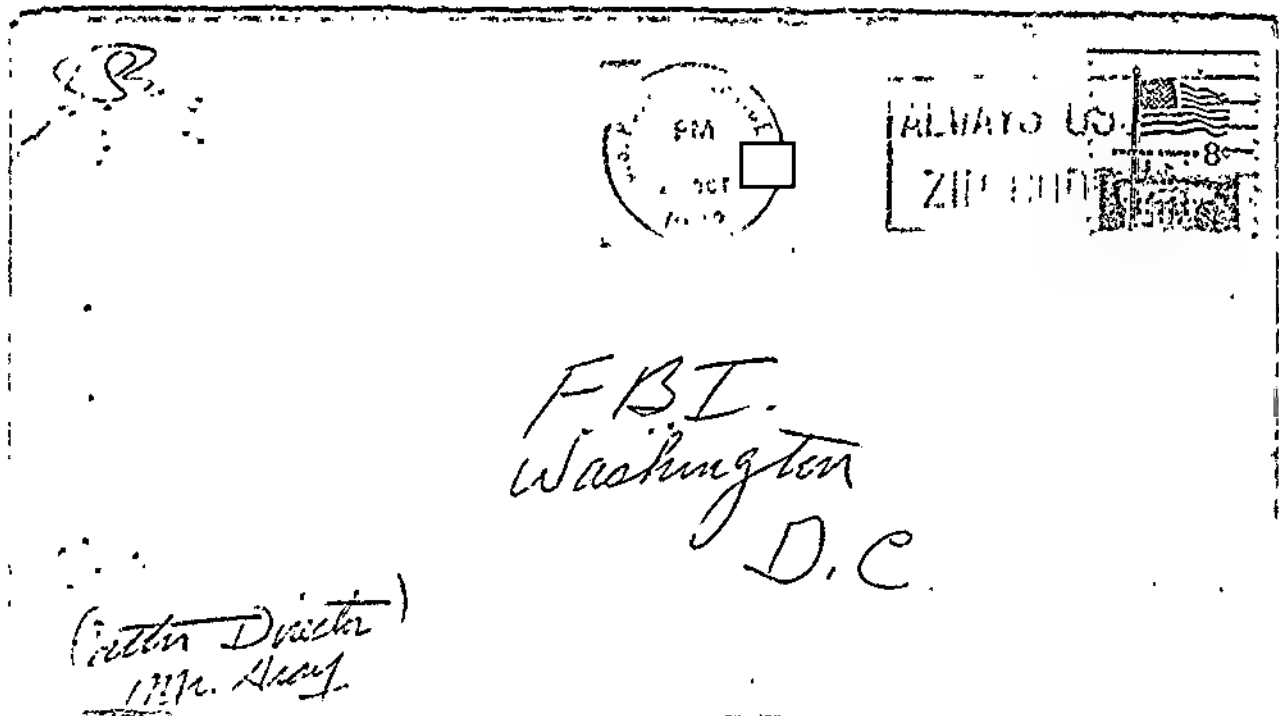

Now you know none of this information is of much value unless it is properly developed at the right time. Some of this will go down the drain unless some one somewhere starts cutting out the fat.

Now you can be of help.

Sincerely

b6
b7c

WEEKLY SUMMARY

The remains of JAMES ANNIS have been found by hunters near Cougar, Washington, on 11/5/72. ANNIS, 16 years old in 1971, was reported missing on 11/13/71 while hunting. He was positively identified by dental examination 11/7/72.

It is felt that the discovery of the remains was the direct result of information being made available to hunters by the Washington State game wardens, and of the publicity being afforded this case by The Pacific Northwest news media.

Seattle file review continues and appropriate investigation instituted on new suspects as they are developed.

Enclosed for SE are two copies of an interview (FD-302) with above named suspect, dated 11/1/72, which is self explanatory.

It is to be noted that [REDACTED] did display a personal check which he alledged to have written on 11/24/71 at Houston, Texas; however, this check was not deposited by the payee until 11/27/71, therefore making it possible to have written this check anytime prior to 11/27/71, or even on the 27th. In view of this, Houston is not at this time deleting [REDACTED] as a suspect.

Investigation is continuing regarding [REDACTED] mentioned in LA letter to HO, dated 10/20/72.

On November 7, 1972, EARL COSSEY was contacted at Leota Junior High School in Woodenville, Washington, and he was shown a parachute that was found near Reno, Nevada. This chute had been forwarded to Seattle for display to COSSEY. The chute was a military backpack type with orange canopy and orange shroud lines.

COSSEY stated this parachute is not identical with the one provided UNSUB because of the following four reasons:

1. Parachute supplied subject had a white canopy.
2. Parachute did not have required markings around the edge of the canopy.
3. Parachute shown to COSSEY had a clamp on it which was not retained to parachute and was not supplied with parachute given to UNSUB.
4. The backpack shown to COSSEY did not have a place to attach a chestpack and the one supplied UNSUB did.

COSSEY stated that he checked his records again concerning the serial number of the chutes supplied UNSUB and was unable to locate them. COSSEY was asked to recheck to determine if possibly the numbers were still in his possession and he stated he would do so. COSSEY further advised he would call the FBI if he located the book in which the serial number of the parachute supplied UNSUB was contained.

Dear 

b6
b7c

This will confirm your telephone conversation with 
of this office on November 9, 1972, relative to a claim you have filed with the U. S. Army to be reimbursed for property damage sustained by you, as well as a personal injury sustained by one of your employees, as a result of a search conducted by elements of the Third Armored Cavalry Division over your property during March of 1972.

As you are aware, this matter was brought to the attention of the U. S. Army at Fort Lewis, Washington, on April 14, 1972, by a Special Agent of this office.

It is suggested that you might desire to contact the Claims Officer, U. S. Army, Fort Lewis, Washington, for any additional information relative to this matter.

Your interest in calling this office is appreciated.

Very truly yours,

J. E. MILNES
Special Agent in Charge

Re Seattle airtel to Bureau 11/1/72.

On 11/7/72, interviews were conducted with the following individuals assigned to the [redacted] [redacted] Langley Air Force Base, Virginia:

b6
b7C

[redacted]

[redacted]

[redacted]

It was the consensus of opinion among the three individuals above, each of whom has had considerable experience with infrared imagery, that efforts to locate the attache case by this means would probably prove futile. The terrain, as described, would neutralize any effort, particularly if tall trees and mountains are part of its makeup. Further explained was the necessity for the presence of heat which would need to be generated by the object (attache case) in contrast to the surrounding terrain for successful infrared high resolution photography. The size of the attache case provides a poor target for any type of aerial photography, including visual photography.

A proposal was suggested, however, which would require Bureau contact at the National Military Command Center in Washington, D. C. [redacted] advised that many training missions in visual aerial photography are flown within the continental U. S., and that perhaps, at the request of the Bureau, some of these training missions could be flown over the area in question as part of the training program. [redacted] suggested that in this regard the cost would probably be minimal at best and further suggested that if such visual aerial photography was attempted, the results might later invite that a second consideration be given to the feasibility of using infrared high resolution photography.

b6
b7c

All three individuals interviewed, however, continued to express their negative feelings as to the success of either of the aerial photography procedures in this particular instance.

Leads are being left to the discretion of Office of Origin.

Dear Sirs:

I wish to take this opportunity to express my appreciation to you for your kind consideration in allowing the members of my command to use your property to establish their bivouac site while they searched for the missing skyjacker, "D. B. Cooper."

It was only mutual cooperation such as this that allowed the difficult search operation to be conducted with such relative ease and efficiency.

Before we terminated our operation on 18 April, I directed that a thorough clean up be made. In addition, I hope to arrange for a regrading of access roads to the camp sites. I hope that this will assist in repairing any damage to the land we used.

Again, thank you for your kind consideration and assistance from both myself and the officers and men of my command.

Sincerely yours,

SWS DD

SUBJECT: NORJAK

Re SA MANNING telephone call to SAC, Seattle, 11/17/72

Attached to this communication is a Xerox copy of a letter dated 4/24/72 received by [redacted]

signed by [redacted]

On a number of occasions since May, 1972 the [redacted] have inquired of the writer concerning their property being made whole after use by the United States Army. These inquiries were directed to SA [redacted] for transmission to the proper authorities at Fort Lewis, Washington. SA [redacted] advised on 11/17/72 that he has called this matter to the attention of [redacted] and others at Ft. Lewis on at least seven or eight occasions and was advised one one of the occasions that it was not the US Army responsibility but was rather a FBI matter to have the property made whole.

The enclosure was sent to [redacted] early in November, 1972 with the letter requesting an immediate repair to their property. All details of the damage done to the property have been placed in memo form and are in the damage claim section of 164-81. For purposes of locating this claim which was called to the attention of several Army officers at the time it was incurred, a possible reference would be the [redacted] property located on [redacted] property was also used as a bivouac area and certain damage there has been or is being repaired by [redacted]. However the damage complained of [redacted] is extremely deep ruts on the road leading to their property and large ruts on their property which is vacant land. They stated a vehicle can not pass on the road due to the ruts and they have been attempting to sell said property but cannot show it due to the impassability of the road.

Both individuals have been extremely patient in this matter but now feel that some satisfaction is in order. [redacted] on 11/17/72 was somewhat placated by the visit of the writer but it is felt that unless some satisfaction is forthcoming shortly with the intention of the Army or the FBI expressed in writing a suit will be the next consideration. It is the opinion of the writer that a distinct possibility exists that the FBI will be mentioned in the said suit.

He also worked as [redacted] in Seattle, Washington for the Federal Aviation Administration and in this regard stated that his thoughts regarding the skyjacking was that there was a fan marker which gives out a light and audio signal which is 75 megacycles located near Woodburn, Washington and he speculated that the person who did this skyjacking could have used this fan marker as a point to parachute out of the hijacked aircraft. He added that he has never been in a Boeing 727 and has never had anything to do with that type aircraft. He denied ever being involved in the skyjacking.

He added that on Thanksgiving eve of 1971 he drove

[] stated that this individual sat down at the table and asked the question, "You know who I am, don't you?" When [] answered in the negative, the individual stated that he was D. B. COOPER. When [] laughed at this the individual became agitated, reached in his pocket, and withdrew a stamp (rubber-type) inked the stamp, and stamped an impression on one of the bar napkins.

[] stated that the stamped impression on the napkin contained the individual's likeness and immediately underneath the likeness was printed "D. B. COOPER." The individual then took the napkin and would not let [] examine it further.

The individual then withdrew his wallet and produced a light green birth certificate in the name [] Seattle, Washington. [] stated that he could not make out any further data from the birth certificate due to the poor light. [] then asked the individual what he had done with the money and the individual stated that he had taken his half and had split. The individual would not discuss the hijacking to any greater extent than that.

[] engaged the individual in small talk during which time the individual advised that he had been in a fight on the evening of 9-8-72 in Seattle, Washington, with a Norwegian and that was how he had gotten the black eye. The individual further advised that he had been involved in a business or had had business in Seattle, but that this had not turned out well at all.

[] stated that the individual advised him that he was enroute to Acapulco, Mexico, but no mode of transportation was mentioned. The individual did not say where he had been staying in the Vancouver area, how long he had been there or how long he intended to stay. [] advised that he saw no weapons during the time he talked to the individual.

[] described the individual as:
